COMICCRAFT

AI comic story creator

Based on observations and feedback from the ComicCraft team

FF Fathima Fahmiya · NM Nivriti Muthu Vairavan · MM Mounika K M · TP Tharun P · YB Yuvaraj B

SCENARIO

Creating, generating and exporting an AI comic from a one-line idea

Entice
How does someone initially become aware of this process?

Enter
What do people experience as they begin the process?

Engage
In the core moments in the process, what happens?

Exit
What do people typically experience as the process finishes?

Extend
What happens after the experience is over?

Steps
What does the person (or group) typically experience?

Entice					Enter					Engage			Exit			Extend			
Hears about ComicCraft	**Opens the web app**	**Types a story idea**	**Picks genre & panels**	**Submits the form**	**Outline is generated**	**Story is written**	**Layout is planned**	**Image prompts built**	**Generation starts**	**Panels render**	**Progress shown**	**Comic page appears**	**Downloads PDF**	**Shares comic**	**Reads / prints**	**Regenerates**	**Tries new genres**	**Gives feedback**	**Returns later**
Sees a friend's AI comic or a class demo	Lands on the ComicCraft home page	Writes one line, e.g. a dragon who fears fire	Chooses genre, art style and panel count	Clicks Create Comic to start generation	Gemini Flash drafts the story outline	Second Gemini model writes panel script	Panels placed on page, captions fitted	Each panel scene becomes an SD prompt	Stable Diffusion v1.5 runs on the GPU	About 12 s per panel on Apple M5	Live status while panels finish	Full page with captions is shown	Exports the comic with fpdf2	Sends PDF to friends or teacher	Views on screen or prints pages	Tries again with a tweaked idea	Explores other styles and settings	Reports odd panels or captions	Creates the next chapter of the story

Interactions
What interactions do they have at each step along the way?

- **People:** Who do they see or talk to?
- **Places:** Where are they?
- **Things:** What digital touchpoints or physical objects would they use?

Entice					Enter					Engage			Exit			Extend			
Search, social media, class demo	Browser: ComicCraft home page	Idea text box on the web page	Genre and panel-count controls	Create Comic button	Web page waiting state (Gemini Flash call)	Web page waiting state (second Gemini model)	Layout engine on the FastAPI server	Prompt builder on the server	Local GPU: Stable Diffusion v1.5 pipeline	Comic preview in the browser	Progress bar in the browser	Result page with all panels	Download button and PDF viewer	Messaging app or email	PDF viewer or printer	Idea box on the home page	Genre picker	Feedback to the team	Home page again

Goals & motivations
At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")

Entice					Enter					Engage			Exit			Extend			
Help me find a quick way to make a comic	Help me start without signing up	Help me express my idea in one line	Help me control the look and length	Help me start with confidence	Help me get a story that makes sense	Help me get a well-paced script	Help me get readable panels	Help me get pictures that match the story	Help me avoid long waits	Help me see my story come alive	Help me know it is still working	Help me judge the finished comic	Help me keep my comic		Help me enjoy the finished comic	Help me improve the result	Help me explore more ideas		Help me continue the story

Positive moments
What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?

Entice					Enter					Engage			Exit			Extend			
			Easy choices for non-artists	One click to start	Outline gives a clear story shape	Script splits cleanly into panels			Panels stream in as they finish		Progress bar reduces uncertainty	Whole comic on one page	PDF export works in one click			Regeneration gives fresh variations			Natural continuation

Negative moments
What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?

Entice					Enter					Engage			Exit			Extend			
		Unsure how detailed the idea should be	Too many options can confuse	Fear of a failed run	Gemini free tier: 5 requests per minute					Faces may vary between panels	Waiting feels long without progress		Large PDF with many panels	No built-in sharing link	Print margins differ by printer				

Areas of opportunity
How might we make each step better? What ideas do we have? What have others suggested?

Entice					Enter					Engage			Exit			Extend			
	Could we add a sample comic on the home page?	Suggest example ideas inside the input box	Offer style previews for each genre	Disable button and show a clear status						Keep the character look consistent			Compress images in the PDF	Add a share link or QR code	Offer A4 and Letter print layouts	Re-roll single panels without a full run
